## About me

During my studies at the Academy of Fine Arts I had the opportunity to work with web development, and I rediscovered how much I enjoyed it. After completing my degree I began to study Web Development as a Full-Stack through a course. Shortly after, I started working as a Software Developer and Graphic Designer.

## Skills

- |            |               |
|------------|---------------|
| HTML       | Photoshop     |
| CSS        | Illustrator   |
| JavaScript | Indesign      |
| Bootstrap  | Figma         |
| Tailwind   | Premiere      |
| Vite       | After Effects |
| Vue        | AWS           |
| Laravel    | 3D resin      |
| MySQL      |               |
| PHP        |               |

## Formation

### Master Full-Stack Web Developer Boolean (Feb 2024 - Sept 2024)

Intensive 700-hour course, during which I attended both theoretical and practical lessons and learned the fundamentals of front-end and back-end development. I also gained experience working with libraries and frameworks such as Vue.js and Laravel.

### Bachelor's Degree in Artistic Design for Enterprises Accademia di Belle Arti Catania (Oct 2020 - Feb 2024)

Three-year theoretical and practical program focused on visual communication, graphic design, editorial and digital graphics. I gained experience with design software, 3D development tools and photogrammetry technologies, working across different creative and technical projects.

### Diploma in Computer Science and Telecommunications I.I.S.S. Carlo Gemmellaro (2013 - 2019)

Five-year program focused on computer systems, information processing, database design and the development of web applications and technologies. During this period, I gained a solid foundation in IT infrastructure, programming principles and software management, which allowed me to build strong analytical and problem-solving skills.

## Projects

### Jr. Full-Stack Web Developer Trainee Boolean (Feb 2024 - Sept 2024)

- Netflix layout replica** with **Vue** I implemented a **searchbar** to filter movies from a public **API**.
- Whatsapp layout replica**, with **Vue** I implemented a function to search on chats, answering messages and deleting messages.
- Developing a portfolio website**, with **Laravel** I developed the **back-office** with which I added and edited my projects, and with **Vue** I developed the **front-end**. Besides that I made a function to **send emails** to contact me, using the platform **Mailtrap** to deliver those emails

### Design della comunicazione visiva

#### Accademia di Belle Arti di Catania (Oct 2020 - Feb 2024)

- Web Design**: I built a website from scratch, initially I thought about its functions and soon after that I made the aesthetic part using **Figma**, once I got it approved by my teacher, I started coding it using **HTML**, **CSS** and **JavaScript**.

## Experience

- Play Code SRLS (2025)**: I developed **software** using my skills of **front-end** and **back-end**, besides I realized **communicative artifacts** as **graphic designer**.
- 3D Resin Printing (2026)**: I manage the full production workflow of miniatures: file preparation, slicing and support placement, resin printing, washing, UV curing and finishing.
